AWAKEN YOUR FEMININE SPIRIT

Pause & Change

one day workshop

Who am I?

During menopause hormones change and so do you,
in ways you never imagined.

Many women ask themselves:

- Why do my moods swing?
- Why can't I think straight?
- Why have I run out of steam?

Our bodies become unpredictable, just managing our menopausal symptoms seems like a full-time job. Menopause is a journey no woman should take alone.

Make sense of your symptoms.
